

## Key Stage 5 Progression Summary 2023

(From Year 12 Sixth Form to External Year 13)

### Summary:

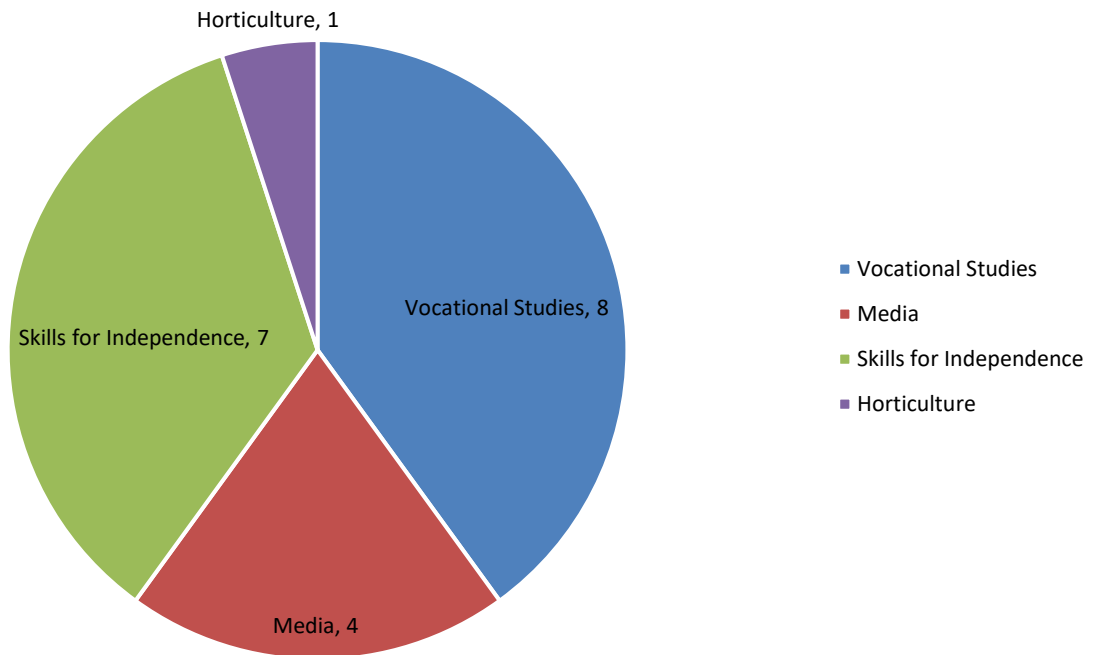

- The one-year Sixth Form Study Programme continues to be highly effective in preparing students for the next stage in their education and/or training, matched to each student's interests, abilities and needs
- All students went on to successfully enroll to external courses matched to their skills, interests and ambitions including one external student who joined the sixth form from mainstream.
- There is one student who despite intense intervention through Year 12 had limited attendance at college but did attend Stormont House well. This meant that this student did not attain a qualification in Year 12 at college but did attain qualifications at school. The student has enrolled into a different college for Year 13 but is still not managing to attend and there is intense intervention across multiple agencies to support the student.
- The progress of these students will be overseen by regular monitoring visits during Year 13.

### Progression from Year 12 into Year 13 (2023)

	Year 12	Year 13
