# AWARDS

This week, **Diego Grabowski** was presented with the **Jack Petchey** Award for December 2025.

Diego received the Jack Petchey Award for December, because since joining the school in Year 7, he has consistently demonstrated an outstanding attitude to learning and to school life. He always tries his best, sets a positive example for others, and approaches every challenge with maturity and enthusiasm—even when the task isn't his first choice. Known for his kindness and genuine interest in others, he regularly checks in with staff, is a loyal friend, and a valued member of his group. He is adaptable, helpful, and proactive, responding to change without complaint and embracing every opportunity that comes his way. His positivity, resilience, and commitment make him truly deserving of this recognition.

Congratulations Diego!

**Ivoree** won the Environmental Award - which is a new award in school.

The **Jack Petchey Environmental Award Programme** recognises outstanding young people aged 11-25 across London and Essex for the work they do to support awareness of climate issues and sustainability in their local community.

Award winners receive a certificate, attend a prestigious award ceremony and have the opportunity to apply for a grant of up to £300 to be used for an environmental project with their supporting organisation.

Ivoree is a real environmental superstar. He works tirelessly to improve the environment at Stormont House School. He is a keen gardener but also cares greatly about the wildlife in the garden and is keen to undertake a project to improve the habitats for insects - to create structures to provide shelter, nesting and hibernation spots that would be beneficial for insects like ladybirds and lacewings. Such structures boost the garden biodiversity and provide natural pest control, acting as refuges for essential pollinators and predators.

Congratualtions Ivoree!
